

Professional system for remote body temperature measurement with mask detection function

NVIP-2H-8912M/TS SET

FUNCTIONS

The set consist of :

1 x IP camera with body temperature measuring feature **NVIP-2H-8912M/TS**
1 x Black body calibration unit **NV-BBU**
1 x N Control 8000 software
1 x ceiling mount NVB-BRTS1 (for the camera)
1 x ceiling mount NVB-BRTS2 (for the calibration unit)

Important features:

- up to 16 people simultaneous measurement within less than 1
- detection of people not wearing masks
- measuring accuracy up to +/- 0,3 ° C
- reducing number of false alarms thanks to VCA - camera measure temperature only in area when face is detected
- measured temperature value is assigned to specific person, captured image and temperature value are both stored in a database in order to carry out further analysis

Camera specification is available here: **NVIP-2H-8912M/TS**

Black body calibration unit specification is available here: **NV-BBU**
