

IP entrance panel

NVE-EP200

The NVE-EP200 IP entrance panel is intended for installation before entering a housing estate or a staircage in a building. Large, readable and integrated keyboard with an interface for an intuitive user to choose how to use the connection to the location or security of the object. Depending on the location of the panel menu available on the list, you can choose the block number (to enter the building) or change the premises (to enter the staircage). LED backlight allows for trouble-free use of the panel also at night. Recessed in the walls of the housing provides an esthetic appearance, resistance to vandalism and IP64 protection, useful for long periods of use.
